

GENERAL TERMS AND CONDITIONS

THESE GENERAL TERMS AND CONDITIONS ARE HEREBY INCORPORATED IN THIS ORDER AND MADE AN INTEGRAL PART HERE OF

1. ACCEPTANCE. The Purchase Order incorporating these terms and conditions becomes a binding contract on the terms set forth herein, when it is accepted by acknowledgment or commencement of performance. Acceptance of this order is limited to the terms and conditions stated herein. Whether the Purchase Order is accepted by acknowledgment or commencement of performance, any additions, deletions or differences in the terms proposed by Seller or contained in Seller's acknowledgement or acceptance or invoice are objected to and hereby rejected unless Buyer specifically agrees otherwise in writing. Any references to substitution of Seller's terms and conditions on the acknowledgment copy of the order or the over stamping of same on the Acknowledgments copy or on invoices are specifically rejected. These terms and conditions shall constitute the complete and exclusive statement of the contract between the parties.

3. ADMINISTRATIVE MATTERS.

(i) All matters pertaining to the administration of this Purchase Order shall be referred to the attention of the authorized representative of the Buyer's Procurement Department identified on the face page of the order at the Buyer's address as shown thereon.

(ii) The headings used herein are for reference purposes only and shall not affect the meaning or interpretation of this purchase order and its provisions.

4. SPECIFICATIONS. Seller shall comply with all specifications stated in this order and (unless the goods called for by this order are standard commercial products not intended as component parts or as equipment or as accessories for Buyer's products) with all applicable U.S. Government specifications.

5. PACKAGING AND SHIPPING

a. Unless otherwise stated in this Purchase Order, all supplies shall be delivered without charge for containers, crating, boxing, bundling, dunnage, draying or storage. Seller shall mark, pack, and ship all items in conformity with good commercial practice, or and if Government specifications are applicable, in accordance with such specifications, and in compliance with requirements of common carriers. Any highly polished, highly finished or precision parts are to be properly preserved and packed in containers which will afford protection against atmospheric deterioration.

b. All parts and materials intended for Buyer shall be protected against the potential damage from shipping, ESD (Electrostatic Discharge), FOD (Foreign Object Debris or Damage), corrosion, moisture, contamination, deterioration or damage by processing, handling, storage at the Seller, or in transit to Buyer or any sub-tier supplier.

1. Packaging All packaging must be designed with considerations given to ergonomics and ease of part removal. Appropriate consideration must be given to carton height, width weight, and disassembly which may affect ergonomics and worker safety. Staples and paperclips are not allowed for any item packaging. The only exception is industrialized staples used to hold cardboard to wood. The large staples are in the same class as nails and screws that hold the crate together and do not pose a FOD danger to the area.

2. Recycle packaging Suppliers are encouraged to determine where and how much recycling materials can be incorporated into packaging design while also providing adequate performance. Consideration should be given to eliminating all unnecessary packaging materials wherever possible. A priority should be placed on reducing material by weight and volume.

3. **FOD Control** When bags are used they should be sufficient size to be sealed with the item inside. Bags shall be heat sealed, or zip locked. Staples, tape or paperclips shall not be used. Trays holding parts shall not be paperboard (egg crates). Part trays should be plastic or non debris producing material. Trays should have covers to prevent parts from falling out or FOD getting in. Items requiring bubble wrap should use an antistatic or conductive material

4. **ESD Control** Static sensitive parts shall be delivered to Buyer in ESD protective packaging, and identified on the external packaging as Static Sensitive. In case of conflict between this procedure and Buyer drawing or PO the drawing or PO shall take precedence.

c. Buyer's Purchase Order number and line item number shall be plainly marked on all packages, individual items, bills of lading, packing sheets, shipping orders, and invoices. Shipping orders or packing sheets shall accompany delivery of all items. Each container of a multiple container shipment shall be identified (i) to show the number of the container and the total number of containers in the shipment and (ii) the number of the container in which the packing sheet has been enclosed. Material for different purchase orders shall be listed on separate packing sheets. Items shall be routed in accordance with instructions provided on the face page of the Purchase Order at the lowest transportation costs or as may be directed by Buyer. Buyer's count and weight shall be conclusive if shipment is not accompanied by shipping order or packing sheet. Originals of all Government bills of lading, commercial bills of lading, air bills, and rail and air express receipts shall be mailed to the traffic department of Buyer.

d. Insurance for loss or damage in transit shall not be purchased unless specifically directed. Excess costs resulting from Seller's failure to comply herewith will be debited to seller.

e. Unless otherwise specified in this Order, shipments will be made via United Parcel Service uninsured collect on Buyer's account. If shipment is prepaid and transportation charges are to be billed to Buyer, a copy of the prepaid transportation bill shall accompany Seller's invoice. Shipments consigned to Buyer and made the same day via the same carrier shall be consolidated on a single bill of lading. Seller's failure to comply herewith will result in Seller being debited for excess cost incurred.

f. Seller shall notify Buyer of all shipments.

6. DELIVERY

a. Time is expressly made of the essence herein. Buyer's production schedules and warranties to its customers are dependent on Seller making delivery of items as ordered and in accordance with the delivery or performance schedule as shown on the face of this order. Seller shall immediately notify Buyer if, at any time, it appears Seller may not meet the agreed schedule. Such notification shall include the cause for delay, actual or proposed steps taken to remedy the delay, and the revised schedule Seller believes it will be able to meet. Buyer's receipt of such notification shall not constitute approval of the delay or of any proposed schedule or be deemed to be a waiver to the delivery schedule. Any assistance provided by Buyer to Seller to overcome delays shall not be deemed to be waiver of any of the Buyer's rights hereunder including termination for default.

b. If Seller's delivery fails to meet the schedule set forth herein such that Buyer calls upon Seller for expedited shipment, Seller, unless excused under the provisions of "Excusable Delays" of this order, shall pay the difference between the method of shipment specified in the order and the expedited method directed by the Buyer.

c. If Seller makes delivery of any item in excess of the quantity specified herein (after considering any authorized variation in quantity), the excess quantities shall be treated as being delivered for the convenience of the Seller. Buyer shall not accept over-shipments except those resulting in good faith from conditions of loading, shipping, packing or allowances in manufacturing processes and in no case exceeding 5% of the quantity called for or a total value of \$250.00, whichever is the lesser. Seller shall not ship ahead of schedule unless authorized in writing in advance by Buyer. Seller may return unauthorized advance shipments at Seller's expense.

7. INSPECTION AND ACCEPTANCE

a. The Seller shall, at no additional cost to Buyer, provide and maintain a quality and inspection system which complies with all specifications and acceptable to Buyer and the Government covering the supplies hereunder. Records of all inspection work by the Seller shall be kept complete and available to Buyer and Buyer's Customer during the performance of this Purchase Order, including any period for final resolution of any dispute involving or related to the goods delivered under this order and for such longer period as may be specified elsewhere in this Purchase Order. Seller shall tender to Buyer only goods that have been inspected in accordance with the inspection system and shall have been found by Seller to be in conformity with all requirements of this order.

b. All supplies (which term throughout this article includes without limitation raw material, components, intermediate assemblies, end products and quality related records) may be subject to inspection and test by Buyer and Buyer's Customer, or either of them, to the extent practicable at all reasonable times and places, including the facilities of Seller's subcontractors and, in any event, prior to final acceptance.

c. If any inspection or test is made by Buyer or Buyer's Customer on the premises of the Seller, or a subcontractor, the Seller without additional charge shall provide all reasonable facilities and assistance, including any requested copies of this order or any drawings, specifications and technical or other data applicable to the ordered items, for the safety and convenience of inspectors in the performance of their duties. If the Buyer's or Buyer's Customer's inspection or test is made at a point other than the premises of the Seller, or a subcontractor, it shall be at the expense of Buyer except as otherwise provided in this Purchase Order, provided that, in case of rejection, neither Buyer or Buyer's Customer shall be liable for any reduction in value of samples used in such inspection or test. Buyer reserves the right to charge to the Seller any additional cost of inspection or test when supplies are not ready at the time such inspection or test is requested by the Seller or when re-inspection or re-test is necessitated by a prior rejection. Final acceptance or rejection of the supplies shall be made at destination except as otherwise provided in this Purchase Order, but failure to inspect and accept or reject supplies shall neither relieve the Seller from responsibility for such supplies as are not in accordance with the contract requirements nor impose liability to Buyer or Buyer's Customer for the supplies.

d. In case any supplies or lots of supplies are defective in material or workmanship or otherwise not in conformity with the requirements of this Purchase Order, Buyer shall have the right either to reject them (with or without instructions as to their deposition) or to require their correction. Supplies or lots of supplies which have been rejected or required to be corrected shall be removed or, if permitted or required by Buyer, corrected in place by and at the expense of the Seller promptly after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirement for correction is disclosed. If the Seller fails promptly to remove such supplies or lots of supplies which are required to be removed or promptly to replace or correct such supplies or lots of supplies, Buyer (i) may, by contract or otherwise, replace or correct such supplies and charge to the Seller the cost occasioned to Buyer or the Government thereby, or (ii) may terminate this Purchase Order for default as provided in the article of this Purchase Order entitled "Termination." Unless the Seller corrects or replaces such supplies within the delivery schedule, Buyer may require the delivery of such supplies at a reduction in price which is equitable under the circumstances.

e. The inspection and test by Buyer or Buyer's Customer of any supplies or lots thereof does not relieve the Seller from any responsibility regarding defects or other failures to meet the contract requirements which may be discovered prior to acceptance. Unless otherwise provided in this Purchase Order, acceptance shall not be conclusive with respect to latent defects or the Seller's warranty obligations.

f. Seller hereby certifies that all supplies will conform to all requirements, specifications, drawings, and related documents referenced by and/or in this Purchase Order. Seller shall maintain on file all test and/or inspection reports relating to the supplies or from compliance with this Purchase Order and be made available for review by Buyer or Buyer's Customer, if applicable, at any reasonable time.

g. Buyer, Buyer's Customer, Government representatives, and/or representatives from regulatory agencies shall have the right of entry to any place necessary to determine and verify the quality of contracted work, records, and material.

8. RESPONSIBILITY FOR SUPPLIES

a. Unless this Purchase Order specifically provides for earlier passage of title, title to supplies covered by this Purchase Order shall pass to Buyer upon formal acceptance by Buyer or Buyer's Customer, whichever is later, regardless of when Buyer or Buyer's Customer, takes physical possession.

b. Except as otherwise provided in this Purchase Order, (i) all risk of loss of or damage to the supplies covered by this Purchase Order shall remain with the Seller until they are delivered to the designated delivery point regardless of any points of inspection; (ii) after delivery to the designated delivery point and prior to acceptance or rejection and the giving of notice thereof by Buyer, Buyer shall be responsible for the loss or destruction of or damage to the supplies only if such loss, destruction or damage results from the negligence of officers, agents or employees of Buyer acting within the scope of their employment; and (iii) the Seller shall bear all risks as to rejected supplies after notice of rejection, except that Buyer shall be responsible for the loss or damage to the supplies only if such loss or damage results from the gross negligence of officers, agents, or employees of Buyer acting within the scope of their employment.

9. PAYMENTS AND DISCOUNTS. Payments shall be made upon the submission by Seller of proper invoices to Buyer's Accounts Payable Department, at the address shown on the face page of this order, for all items delivered and accepted. With respect to any deferred prompt payment discount, time shall be computed from the date of delivery, date of acceptance, or from the date a proper invoice is received by Buyer, whichever is later. Payment is deemed to be made for the purpose of earning a discount; on the date Buyer's check is mailed. The date for calculation of any cash discount offered by the Seller and provided for on the face of this purchase order is (i) the date the material is received, (ii) the date material is scheduled to be received under the purchase order, or (iii) the date an acceptable invoice is received, whichever is later.

10. PRICE WARRANTY. Seller warrants that prices of the items set forth herein charged to the Buyer do not differ from the prices charged to any other purchasers of items of like grade and quality in similar or lesser quantities, and under similar conditions of purchase. Seller further warrants that during the performance of this order, should it elect to reduce the prices charged to any other purchases of items of like grade and quality, it will reduce the prices charged to Buyer accordingly.

11. WARRANTY. All warranties of Seller, whether created by law or otherwise, are incorporated herein by reference and shall include the following express warranties:

a. Seller warrants the goods delivered hereunder to be in compliance with all drawings, specifications incorporated or referenced herein and with any samples or other description furnished by the Seller.

b. Seller warrants that the goods delivered hereunder shall be merchantable, new, of good material and workmanship and free from defects in workmanship, material and manufacture, suitable for their intended purpose and, where the goods were designed by Seller, free from defects in design.

c. Seller warrants that all Services and technical data have been performed or prepared in a professional and workmanlike manner. All warranties survive acceptance and shall run to Buyer, its successors and assigns, Buyer's Customer and to the users of its products. Delivery, inspection, test, acceptance or use of or payment for the goods furnished hereunder shall not affect Seller's obligation under this warranty, and such warranties, and all other warranties, express or implied, shall survive delivery, inspection, test, acceptance, payment, and use.

12. MATERIAL FURNISHED.

a. If Buyer furnishes any material or fabrication hereunder, Seller, (i) agrees not to substitute any other material in such fabrication without Buyer's written consent, (ii) agrees that title to such material shall not be affected by incorporation in or attachment to any other property and (iii) agrees to state and warrant on its shipper and invoice for final parts: "All material furnished by Buyer on this Purchase Order (except that which becomes normal industrial waste) has been returned in the form of parts and unused material". Proceeds of scrap salvage shall accrue to Seller and are reflected in the prices stated herein.

b. Seller agrees that it will use any designs, tools, patterns, drawings, information and equipment, title to which is with Buyer only in the performance of this Purchase Order and not otherwise unless Buyer's prior written consent has been obtained. The foregoing shall not be construed as limiting the right of the Seller to use designs, tools, patterns, drawings, information and equipment in the manufacture of items for direct sale to the United States Government to the extent that the Government has the right under its prime contract with Buyer or otherwise to authorize such use by Seller, and further, to the extent that such use will not interfere with Seller's performance of this or other orders from Buyer relating to Government contracts in effect at the time Seller enters into direct sale to the Government; provided further, that Seller furnishes prior written notice to Buyer of such intended use and to the extent practicable Seller prominently identifies each such item as being manufactured by the Seller for direct sale to the United States Government. Seller agrees that no inaccuracy in tools or fixtures which Buyer furnishes, shall excuse performance not in strict accordance with specifications. Upon completion or termination of this Purchase Order, Seller shall obtain from Buyer shipping instructions or other authorized disposal instructions prior to the return of any items furnished by Buyer under this Purchase Order. Unless otherwise specified in this Purchase Order, the price includes the cost of gauges, jigs, fixtures, dies, molds, tools, patterns, and similar property that may be obtained or required by Seller for use in the manufacture, fabrication, or assembly of the articles called for herein, and unless otherwise specified, title to such property will remain with Buyer.

c. In the event (i) there are any new features of design conceived in the performance of the work hereunder or incorporated in any material, article or machine made under this Purchase Order, (ii) a substantial portion of the development cost thereof is being charged by Seller directly or indirectly to Buyer and (iii) the material, article, or machine with respect to which Seller already possesses patent or proprietary rights, then Seller grants to Buyer the right of reproduction of such material, article, or machine together with a royalty-free, non-exclusive, irrevocable license under any U.S. patent covering such new features of design. Seller agrees to disclose, and on request assign to Buyer and at no expense thereto, any invention or discovery conceived or first reduced to practice arising from designs, sketches, specifications, drawings, computer programs and software, or from tools and test equipment, or any other item of equipment, data or information furnished by Buyer or from items specially developed for Buyer under this order.

13. CHANGES. Buyer may at any time, in the manner described hereinafter, and without notice to sureties, make changes within the general scope of this Purchase Order in any one or more of the following (i) drawings, designs, statements of work or specifications of supplies being specifically manufactured to Buyer, (ii) method of shipment or packaging, (iii) the method or manner of performance of the work, (iv) place of delivery, (v) Buyer or Government furnished property, facilities, equipment, materials or Services, (vi) Seller's obligation to comply with any provision of the Federal Acquisition Regulation or any supplement thereto, whether or not incorporated into this order, and (vii) delivery schedules. If any such change causes an increase or decrease in the cost of, or the time required for, performance of this Purchase Order, an equitable adjustment shall be made in the Purchase Order price or delivery schedule or both, and the Purchase Order shall be modified in writing accordingly. Buyer shall promptly comply with such changes. Buyer employees have no authority (a) to direct any change affecting (i) above which increases the Purchase Order price, except by a change order issued by a duly authorized purchasing representative, or (b) to direct any other change affecting (i) through (iv) above except by a change advice or other writing issued or signed by Buyer. Any claim by Seller for adjustment under this clause, and any claim by Seller for adjustment predicated upon the contention that Buyer has directed a change by means other than those stated above, must be asserted in writing to Buyer's Purchasing Department not later than fifteen (15) days after the date of receipt by Seller of the change advice or other writing referred to above or allegedly equivalent direction or within such extension of that fifteen (15) day period as Buyer, in its sole discretion, may grant at Seller's request prior to the expiration of said period or any extension thereof. Nothing in this clause shall excuse Seller from proceeding with the Purchase Order as changed.

14. EXCUSABLE DELAYS. Time is of the essence in the performance under this Purchase Order. A delay in delivery or performance of this Purchase Order shall be excused when such delay is due to causes beyond the control and without the fault or negligence of Seller. Such causes may include, but are not limited to, Acts of God or of the Public Enemy, Acts of the Federal, State or Local Government in a sovereign or contractual capacity, fire, floods, epidemics, quarantine restrictions, unusually severe weather, strikes or freight embargoes. In every case, such failure to perform must be beyond the control and without the fault or negligence of Seller. No cause shall constitute a basis for an excusable delay unless Seller notifies Buyer in writing within ten (10) days from the beginning of such delay.

15. TERMINATION.

a. Termination for Convenience. The Buyer, at any time and without limitation, may terminate this order, in whole or in part, pursuant to the provisions of the contract clause entitled "Termination for Convenience of the Government (fixed price)" as set forth at sub-section 52.249-2 of the Federal Acquisition Regulation in effect of the date of this order, which said clause is incorporated herein by this reference in its entirety except paragraph (i) of said clause. For purposes of implementing the said clause, words and terms as used in the clause shall be altered as follows:

- i. "Contracting Officer" shall mean "Buyer's Purchasing Representative."
- ii. "Government" shall mean "Buyer."
- iii. "Contractor" shall mean "Seller."
- iv. The period of "1 year" in paragraph (d) is changed to "6 months."
- v. The period of "45 days" in paragraph (e) is changed to "90 days."
- vi. The period of "90 days" in paragraph (k) is changed to "45 days."
- vii. "This contract" and "The contract" shall mean "this Order."

This paragraph shall apply whether or not this Order is authorized pursuant to a Government contract or subcontract. In the event Buyer elects to terminate pursuant to the above and audit by Government of the Seller's books and records is not authorized by provisions of this Order then such an audit shall be conducted by an independent certified public accounting firm selected by the Buyer.

b. Termination for default. In addition to the rights conferred in (a) above and under applicable law, Buyer reserves the right to terminate without charge all or any part of the undelivered portion of this order if Seller does not make deliveries or otherwise perform as specified, or so fails to make progress as to endanger performance of this order as specified. In the event of such termination, in whole or in part,

Buyer may procure the supplies or Services elsewhere and on such terms as Buyer deems appropriate and Seller shall be liable for Buyer's re-procurement costs. Seller shall continue performance of this Purchase Order to the extent not terminated.

1) Except with respect to defaults of vendors or subcontractors, Seller shall not be liable for any excess costs if the failure to perform this order arises out of causes beyond the control and without the fault or negligence of Seller. Such causes may include, but are not restricted to an excusable delay as defined in Section 14; and in every case the failure to perform must be beyond the control and without the fault or negligence of Seller. If failure to perform is caused by the default of a vendor or subcontractor to Seller, and if such default arises out of causes beyond the control of both the Seller and the vendor or subcontractor, and without the fault or negligence of either of them, Seller shall not be liable for any excess costs for failure to perform, unless the goods to be furnished by the vendor or subcontractor were obtainable from other sources in sufficient time to permit Seller to meet the required delivery schedule. No cause shall constitute a basis for excusable delay unless Seller has notified Buyer in writing of the existence of such cause within ten (10) days from the beginning thereof.

2) If this order is terminated under this clause, Buyer, in addition to any other rights provided in this section, may require Seller to transfer title and deliver to Buyer in the manner and to the extent directed by Buyer (i) any completed goods, and (ii) any partially completed goods and materials, parts, components, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "contract materials") as the Seller has specifically produced or specifically acquired for the performance of such part of this order as has been terminated; and the Seller shall upon direction of Buyer, protect and preserve property in the possession of Seller in which Buyer has an interest. Payment for completed goods delivered or rendered to and accepted by Buyer shall be at the order price. Payment for contract materials delivered to and accepted by Buyer, and for the protection and preservation of property, shall be in an amount agreed upon by Seller and Buyer. Buyer may withhold from amounts otherwise due Seller for such completed goods or contract materials such sums as Buyer determines to be necessary to protect Buyer against loss because of outstanding liens or claims of former lien holders.

3) If, after notice of termination of this contract under this provision it is determined for any reason that Seller was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to Paragraph 16 entitled "Termination for Convenience".

c. Buyer also reserves the right to terminate all or any part of this Purchase Order without charge in the event of the insolvency of Seller, filing of a voluntary or involuntary petition of bankruptcy by the Seller, appointment of a receiver or trustee for Seller, or the execution by Seller of an assignment for the benefit of creditors.

The provisions of (a), (b) and (c) shall not limit the rights or remedies of Buyer in event of breach by Seller in other provisions of this order or as provided by law.

16. WAIVER. The failure of Buyer to enforce at any time any of the provisions of this Purchase Order, or to exercise any option herein provided, or to require at any time performance by Seller of any of the provisions hereof, shall in no way be construed as a waiver of such provisions, nor in any way to affect the validity of this agreement or any part thereof, or the right of the Buyer thereafter to enforce each and every such provision.

17. PROPERTY LIABILITY. Seller shall (i) immediately notify Buyer of and (ii) be liable for the loss of or damage to Buyer or Buyer's Customer property while such property is in Seller's possession. Seller shall maintain in serviceable condition, preserve and account for all property furnished hereunder, and shall not use or dispose of same except in acceptance with Buyer's written instructions. Seller shall also be liable for all losses to Buyer occasioned by Seller's failure to furnish timely written notice to Buyer of loss or damage to Buyer and/or Government furnished property suffered in transit or prior to receipt by Seller. Seller agrees that Buyer and/or Government representative shall, at all reasonable times, have access to any premises upon which Buyer and/or Government property is located for the purpose of inspecting such property.

18. ASSIGNMENT. Neither this Purchase Order nor any interest herein may be assigned or otherwise transferred by Seller in any manner, except that claims for monies due or to become due Seller under this Purchase Order may be assigned to a bank, trust company or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this Purchase Order not already paid, shall not be made to more than one (1) party, and shall be subject to the right hereby reserved and exercisable by and granted to Buyer to make at any time deductions from assigned claims by way of setoff or recoupment in the same manner that such deductions could be made if such assignment did not exist. This right of setoff or recoupment shall exist whether the subject of the setoff or recoupment arose before or after the assignment, before or after any notice with respect thereto that Seller or its assignee may give to Buyer or for debts arising under this or any other agreement. It is also a condition of this limited consent that, in spite of the prohibitions herein contained, multiple assignees are involved; Buyer shall be entitled to apportion recoupment of setoff amongst such assignees in any manner it may elect.

19. LABOR DISPUTES. Wherever Seller has knowledge that any present or potential labor dispute is delaying or threatens to delay the timely performance of this Purchase Order, Seller shall immediately give notice thereof, including all information relevant thereto, to Buyer Purchasing Department. Seller agrees to insert the substance of this Article 19, including this sentence, in any subcontract hereunder where a labor dispute might delay timely performance of this purchase order, except that each such subcontract shall provide that in the event its timely performance is delayed or threatened by any actual or potential labor dispute, the subcontractor shall immediately give Seller notice thereof, including all information relevant thereto.

20. TAXES. Except as otherwise provided in this Purchase Order or as prohibited by law, the Seller represents that the prices stated shall include any and all applicable federal, state and local taxes which cannot be excluded by action of the Seller or operation of law. Seller shall pay all federal state and local sales, use, excise or other taxes that may be levied or assessed for any reason or purpose as a result of this Purchase Order. The Seller represents that the prices stated exclude all such taxes which can be excluded by action of the Seller or by action of law. Any tax not so excluded shall be entered on invoices as a separate line item. If any tax or portion thereof which is included or added to the price paid to Seller hereunder is subsequently refunded to Seller, Seller shall promptly pay to Buyer the amount of such refund, including any interest to the extent it was earned after payment by Buyer.

21. RELEASE OF NEWS INFORMATION. If this Purchase Order is issued under a Government prime contract or subcontract hereunder, no news release, public announcement, denial or confirmation of same or any part of the subject matter of this Purchase Order or any phase of any program hereunder shall be made without written approval of Buyer.

22. CONFIDENTIAL INFORMATION. All information, including but not limited to writings, drawings, tools, models, and oral disclosures, not in the public domain, received by Seller from Buyer or learned of, or produced by Seller in connection with the performance of work under this order is the sole property of Buyer and will be held by Seller in confidence at all times hereafter, and will not be used by Seller or disclosed by Seller to any person, firm, or corporation without prior written consent of Buyer. The foregoing shall not be construed as limiting the right of the Seller to use such writings, drawings, tools, models, and disclosures in the manufacture of end items for direct sale to the United States Government to the extent that the Government has the right under its prime contract with Buyer, or otherwise, to authorize such use by Seller, and further, to the extent that such use will not interfere with Seller's performance of this or others from Buyer relating to Government contracts in effect at the time Seller enters into direct sale to the Government, provided further, that Seller furnishes prior written notice to Buyer of such intended use and to the extent practicable Seller prominently identifies each such end item as being manufactured by the Seller for direct sale to the Government. If this Purchase Order is issued under a Government prime contract or subcontract, this Article 22 shall be deemed deleted to the extent inconsistent with the clauses incorporated by reference under Article 45, below.

23. COPYRIGHTS. Seller agrees that, for any works of authorship created by Seller or any of its employees or subcontractors of Seller in the course of this order, those works that come under one of the categories of "Works Made For Hire" in 17 U.S.C. § 101 shall be considered Works Made For Hire. For any works of authorship that do not come under such categories, Seller, warranting that it has the right to do so, hereby assigns and agrees to assign to Buyer all right, title and interest it has to any copyright in such works and will execute or cause to be executed any documents required to establish Buyer's ownership of such copyright.

24. COST OR PRICING DATA.

a. Seller shall submit cost or pricing data prior to the execution of this Purchase Order and the pricing of any Purchase Order change or other modification which involves aggregate increases or decreases, or both, in costs plus applicable profits expected to exceed the threshold for submission of cost or pricing data, except where the price adjustment is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

b. Seller shall certify, in the same form as that used in the certificate by Buyer to the Government, that, to the best of its knowledge and belief, the cost or pricing data submitted under (a) above is accurate, complete and current as of the date prescribed by the Truth in Negotiations Act, 10 U.S.C. 2306a ("TINA" and FAR Subpart 15.4).

c. Seller agrees to indemnify and hold harmless Buyer for damages, as defined herein, resulting from any failure or alleged failure of Seller, or Seller's lower tier subcontractors, to supply current, accurate and complete cost or pricing data to Buyer as prescribed by the Truth in Negotiations Act, 10 U.S.C. Section 2306a ("TINA"), and FAR Subpart 15.4. As used herein, "damages" shall mean the dollar amount by which the total price of the prime contract is reduced, or the amount of Buyer's cost that is disallowed, plus interest and penalties prescribed in TINA, and incidental costs and expenses, including attorney's fees and costs.

d. The price of this Purchase Order shall be equitably reduced by the amount of damages as defined herein, at such time as the Contracting Officer of the prime contract reduces the price of the prime contract disallows Buyer's costs, or demands payment from Buyer's Customer for damages in a final decision, whichever occurs first, based on findings that Seller or any lower tier subcontractor failed to supply current, accurate and complete cost or pricing data. In the event Seller has been paid the entire Purchase Order price, then, upon written notice by Buyer, Seller immediately shall remit to Buyer the amount of damages.

e. The Seller shall require subcontractors hereunder to submit and certify cost or pricing data in accordance with and under the circumstances described in the clauses entitled "Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data" or "Requirements for Cost or Pricing Data or Other Information Other Than Cost or Pricing Data -Modifications" which is presently set forth in FAR clauses 52.215-20 or 52.215-21" and paragraph (a) above, as applicable.

f. Seller acknowledges that Buyer is relying on Seller's compliance with its obligations to submit current, complete and accurate cost or pricing data and to update its cost or pricing data as required in applicable regulations and agrees that, notwithstanding the other provisions of this purchase order, it will certify its cost or pricing data as of the date Buyer enters into the contract with its customer.

25. INDEMNIFICATION OF BUYER.

a.
